

All Our Hearts Beat As One 2016

Exhibition Dates
13 - 15 October 2016

CINDY LASS

"If you strip us of our physical looks, beliefs and everything you will find we all have the same HEART pumping to THE SAME BEAT..... all over the world."

This is the overriding focus of self taught artist Cindy Lass. A belief that essentially we are all alike and that what connects us is much more powerful than anything that divides us.

This year's event in this ongoing project focuses on the need for us all to reconnect and to heal our hearts through the medium of art. In an increasingly virtual world with huge demands on our time, this is a moment to reflect on the power of human connection and communication.

"I have been overwhelmed by the response from artists and celebrities - we have some amazing artwork and every piece sold either in the auction or during the three day exhibition will benefit the Heart Cells Foundation - this charity that have partnered with us to bring this exhibition to fruition. The following pages will give you a taste of what's on offer.

This will be a holistic experience - like no other charity art exhibition. Take a deep breath, feel inside your heart while connecting with the colour and energy in the gallery. I have had the pleasure to paint for The Queen and host of celebrities from David Beckhan to Sir Elton John. My art has now brought me to this moment; I feel as a human being that I live through colour. Life is here to be enjoyed, whilst being kind to others..... I want to spread the understanding that we are not all different ... WE ALL HAVE A HEART.

Heart Cells Foundation

Passion and commitment is a trait that the Heart Cells Foundation share with Cindy Lass.

Through the power of a patient's own stem cells the Heart Cells Foundation has created a new field of medicine in the 21st Century. Giving hope to people suffering with heart disease. Patients tell us "we are giving them back their lives".

12 years ago my late husband Ian Rosenberg, having been told he only had weeks to live, travelled to Germany to be one of the first patients treated with his own stem cells. This ground-breaking procedure gave him years he otherwise would not have had. Ian was determined that everyone in the UK should receive this treatment. It was his drive and determination which created the Heart Cells Foundation.

Having successfully completed three gold standard trials, we are continuing to work with St Bartholomew's Hospital in their state of the art Cardiac Centre where we have started a compassionate patient treatment centre, the first of its kind in Europe. This new Centre will give people who otherwise would have no hope of recovery the chance of regenerating their hearts.

Stunning Art and amazing people have created this unique art experience which I look forward to sharing with you to ensure we can give patients and their families a better quality of life, and that "All Our Hearts Beat As One".

Having experienced some of life's hardest personal challenges Nikki recognised the importance of regenerating one's heart by connecting to others. Now motivated to practise what she learnt. She happily offered to collaborate with Cindy to take the "All Our Hearts Beat As One" project from concept to reality. Cindy needed someone to bring the dream alive, to create a unique art based initiative that would regenerate hearts emotionally and physically..... which was not an easy feat! Nikki cleared the space, to ground Cindy and took over the logistics to bring this project to fruition.

ROBIN DUTT, ART CRITIC

'All Our Hearts Beat as One' is not a simple observation alone. It is a gentle command to realise, to think, to remember and to act. Simple and complex as the sentiment is and given its intensity it has proved most efficacious when one sees and appreciates the variety of work that it has inspired. Cindy Lass is an artist I met serendipitously, and I have always held that word as the best ever invented, for it is indeed, the happy chance of finding something wonderful you were not looking for. By organising this exhibition of such a panoply of works from such a panoply of talents, Cindy has achieved a life time desire. She herself says that art has brought her to the place she is now, calling out with her infectious enthusiasm and beautiful generosity in everyway to all, to, in the first place think and then act for others. Because we can. Indeed, we must. Cindy has always expressed herself in her own vibrant work with an irresistible vivacity. She recognises it in others too and wants to celebrate this. This exhibition proves it. Trulydon't All Our hearts Beat As one?

Gallery Different is delighted to again host ALL OUR HEARTS BEAT AS ONE in our Fitzrovia gallery. The concept is a great fit with art which has the power to communicate in a way that cuts through the barriers of race, religion, gender and social inequality.

We are grateful for the huge support that has been given by artists, friends and celebrities and they have certainly risen to the challenge.

This exhibition is in the tradition of Gallery Different which encompasses art across a wide range of media and genres and represents both globally known artists and exciting emerging talent.

There is something here to fit all tastes, decors, aesthetics and budgets, so there should be no difficulty in choosing the piece that you want to take home! Your purchase will have a direct and tangible impact on the work of the Heart Cells Foundation which is changing people's lives today.

Artworks may be viewed at www.gallerydifferent.co.uk. Bidding in the online auction starts from 6th October, and other artworks in the exhibition may be reserved or purchased online.

Picasso famously said that the purpose of 'Art' was to wash the dust of daily life from our souls. We look forward to welcoming you to our events, and hope that you will enjoy this 'different' art experience.
